

Fan Tang Asian Wok

To whom it may concern,

Michael Naz and the Pro Business Group team. They have gone above and beyond with continuously increasing our company sales with business development services.

There has been a series of accomplishments provided by Michael Naz with business development. Such as assisting us in achieving over 1k reviews, acquiring first page ranking on Google through specific keywords. In addition to streamlining our hiring process with a full online career center and excellent written jobs ads with compelling graphic design work.

Michael Naz's strategic approach is direct with emphasis that we are constantly competing against franchise level restaurants with the same food ethnicity as ours. Over all, this is a very successful approach to strategic marketing for anyone.

We appreciate all the hard work and uncanny focus Michael Naz & Pro Business Group Inc have put in place to increase our company revenue and lead generation.
